

Contents

Overview

1 Introduction

2 Wind Energy

3 Solar Energy

3.1 Solar Hot Water Systems

3.2 Solar Photovoltaic (PV) Systems

4 Geothermal Energy

5 Starting From Scratch

6 Hybrid Systems

7 Community Systems

7.1 Social Housing Initiatives

7.2 Investment Initiatives For Individuals An Developers

7.2.1 Investment By Individuals

7.2.2 Investment By Developers

8 Earning Money From Micro-Generation

8.1 Grid Connection

8.2 Renewables Obligation Order

9 Grants And Support

10 Impact

10.1 Impact On Householders

10.2 Impact On The Power Supply Industry

10.2.1 Impact Of Government Policy

10.2.2 Impact Of Distributed Generation

10.3 The Wider View

11 Investment And Overshoot

11.1 The 1970s Revisited

12 Market Growth

12.1 Determining Factors

12.2 Identifying Winners

12.2 Sector Specifics

10.2.1 Wind

10.2.2 Solar PV

10.2.1 Solar Hot Water

10.2.2 Geothermal

13 Conclusions

Vendor Profiles

Wind

Solar Hot Water

Solar Photovoltaic

Geothermal
